ACCESS TO MODERN TECHNOLOGIES

Do modern technologies influence our behavior?

- Of course – in positive and negative way as well
- Modern technologies change world's appearance and our behavior.

Do modern technologies influence our behavior?

Positive

- It helps in medicine as diagnosis and healing.
- It gives people optimistic mood and more chances for better life.

Do modern technologies influence our behavior?

Negative

- When it is given to wrong people, it can be abused (some weapons), it can make damage and influence humans life in a negative way.

Do modern technologies influence our behavior?

Negative

- Modern technologies can divert our attention, we can become addicted to them.
- Thanks to modern technologies, we think less and we don't train our brain enough, we can also lose our mind

Do modern technologies make your life more difficult or easier?

- Modern technologies make our life much easier in a lot of ways
- It brings many possibilities which can save our time and teach us

Do modern technologies make your life more difficult or easier?

For example:

- Easier communication thanks to mobile phones and internet, you can connect with somebody from everywhere
- We can do the shopping online from our home, we don't have to be limited by our local shop

Addiction to modern technologies

- Addiction to modern technologies because of increasing number of activities
- We spend more and more time online

Most frequent addictions:

- Games
- Internet
- Chatting
- Computer
- Mobile

Scientific discoveries

- At the beginning, technologies influenced communication in science and the army, after that it influence a education, service and common life
- Modern technologies replaced
 - We can find everything on the Internet
 - Internet banking
 - Download files

Scientific discoveries

- Home cinema – we can enjoy our favourite films at home in high quality
- Maps and GPS navigations
- We can preserve our documents in special memories (flash discs, ...)

Availability of modern technologies

- Almost every household owns computers, TV, mobile phones, tablets
- Availability of connection to network expands, it is for available price, so everybody can have it

Use of modern technologies at work

- Modern technologies make your life easier, and also your job
- There is probably not any subject where modern technologies wouldn't be used

Use of modern technologies at work

- It is obvious, young people are able to use computers at work
- It is not only about computers but also laptops, tablets, smartphones

Use of modern technologies at school

- Development of modern technologies is in touch with almost every part of human life
- Education in primary school doesn't make any exception. It discovered few interesting trends there.

Use of modern technologies at school

- Equipment of classes for IT lessons and the other classes with connection to network became standard, which allows to change a teaching style
- Except of the computers, there are installed visualers, data projectors, interactive boards there

THE END

Thank you for watching
