

The Virtual World

Are we from the Real World
or
the Virtual World ?

Now the Humans can setup and manage their own world.

A close-up, profile view of a man with glasses looking intently at a computer monitor. The scene is dimly lit, with the primary light source being the glow from the screen, which casts a blueish light on his face and the surrounding environment. The man's expression is one of concentration. The text is overlaid in the center of the image.

Being the prisoner of the real world is better than being the king of the virtual world

People live as a plant life while surfing on the internet.

A digital head with a glowing brain against a blue grid background. The head is rendered in a dark, semi-transparent mesh, with the brain area filled with a complex network of bright blue and white nodes and connections, resembling a neural network or data flow. The background consists of a grid of horizontal and vertical lines in various shades of blue, creating a digital or futuristic atmosphere.

Humanity hasn't died yet ,
but there is a place where kills it.

Who manages our children's future ?

- In my opinion ;
- Virtual world manages it.

Do you know what are the effects of virtual life to ourselves ?

I think it is opposite the truth.

- If I have one friend in the real world, it is better than 10 friends in the virtual world .

- **The Virtual World is the unreal and pretended place which we should protect ourselves from the virtual life.**
