# AN ISLAND IN THE CENTER OF ATHENS

# **ANAFIOTIKA**

## **just under the Acropolis**

**In 1840 King Othon asked from the famous builders of the Island of Anafis to build the PALACE and the new houses after Greece gained Independence from the OTHOMAN occupation**

The king allocated the area under the Acropolis to Anafiotres so they can live while they worked in Athens

**PEOPLE FROM ANAFI BROUGHT WITH THEM  
THEIR LIFESTYLE ,THEIR TRADITIONS AND THEIR  
HOSPITALITY**

***LOOKING AT THE WHITE-WASHED  
SMALL HOUSES YOU REALIZE THAT  
THESE PEOPLE BUILT THEM THE  
SAME STYLE AS THEIR OWN ON THE  
ISLAND OF ANAFI***

**WALKING THROUGH THE SMALL NARROW PATHS  
WITH GARDENS AND MULTICOLOR FLOWERS YOU  
FEEL THE SERENITY OF CYCLADIC ISLAND**

**When we walk there we feel  
that we are on the island**

# climbing the steep stairs
